Botanical Art Cards - Wholesale Line Sheet 2025

Flowers that last forever
Botanical Art Cards that brighten up your day

Hello! I'm Grace, a linocut printmaker and mum of two based in Sheffield, South Yorkshire. I create greeting cards inspired by the beauty of nature, especially flowers, which I always loved.

My designs are all about clean lines, bold contrasts, and a simple, joyful feel...capturing those small, quiet moments in nature. Each card starts life as an original linocut print, hand-carved and carefully composed in my home studio. I then turn those prints into high-quality digital reproductions, printed on beautiful matt, slightly textured paper.

Whether framed, posted, or popped in with a gift, these cards are made to bring a little calm, beauty, and connection into everyday life. A lovely pick for plant lovers, art fans, or anyone who loves a meaningful card.
